

Where top companies meet the next generation of computational engineers, AI innovators, and simulation experts.
Be part of CFCE 2026: network with peers, recruit exceptional talent, explore exciting opportunities, and contribute to the future of engineering.

CAREER FAIR

in Computational Engineering

23-24 July 2026, ICM-Munich, Germany

THURSDAY 23 JULY 2026

11:00-14:00 Registration for non WCCM-ECCOMAS 2026 participants

14:00-14:15 CFCE 2026 Opening

14:15-18:30 Career Fair Exhibition & Networking

FRIDAY 24 JULY 2026

8:30-10:00 Registration for non WCCM-ECCOMAS 2026 participants

10:00-15:00 Career Fair Exhibition & Networking

15:00 CFCE 2026 Closing

Hilti Group is a global leader in construction technology in 120+ countries, pioneering innovative solutions that make construction better.

LBenergy GmbH develops AI-powered heating solutions that cut costs by 20–30% while ensuring comfort and sustainability.

MTU Aero Engines develops advanced propulsion technologies for safer, cleaner aviation.

Technical University of Munich (TUM) is a top European university driving excellence in engineering, science, and innovation.

Siemens Xcelerator helps businesses digitally transform their design and manufacturing processes using software and digital twin technology to create sustainable, agile, and cost-effective products.
